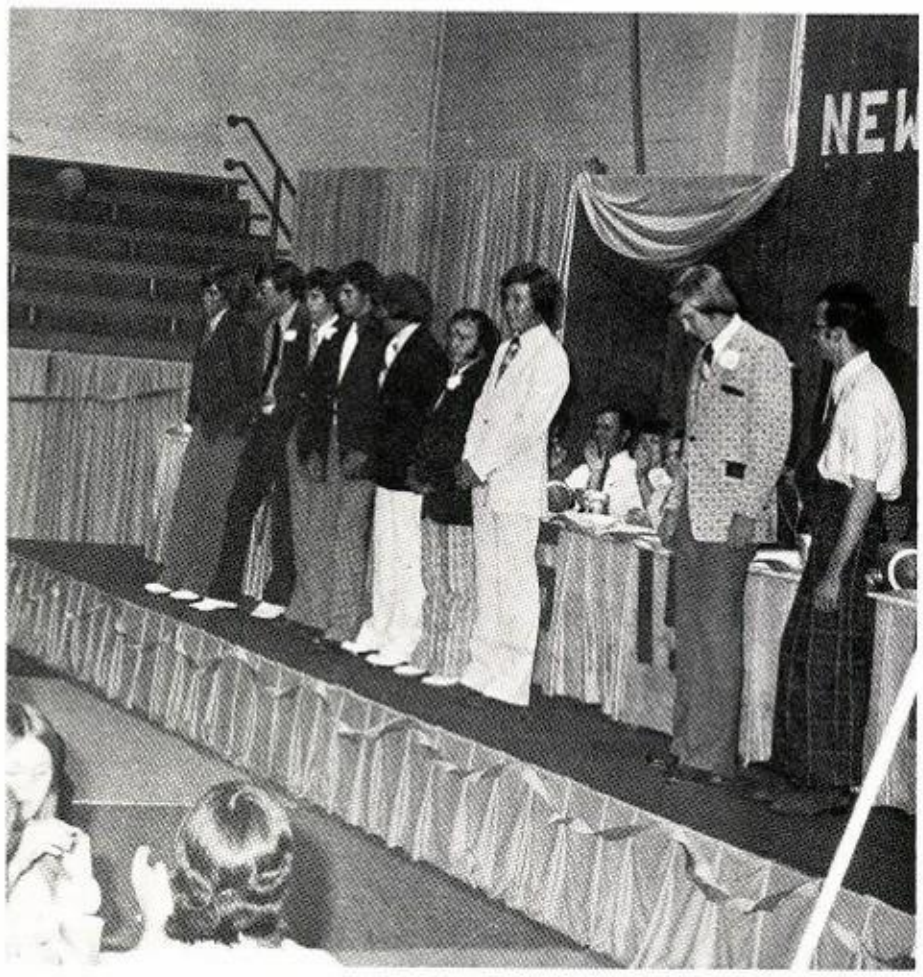
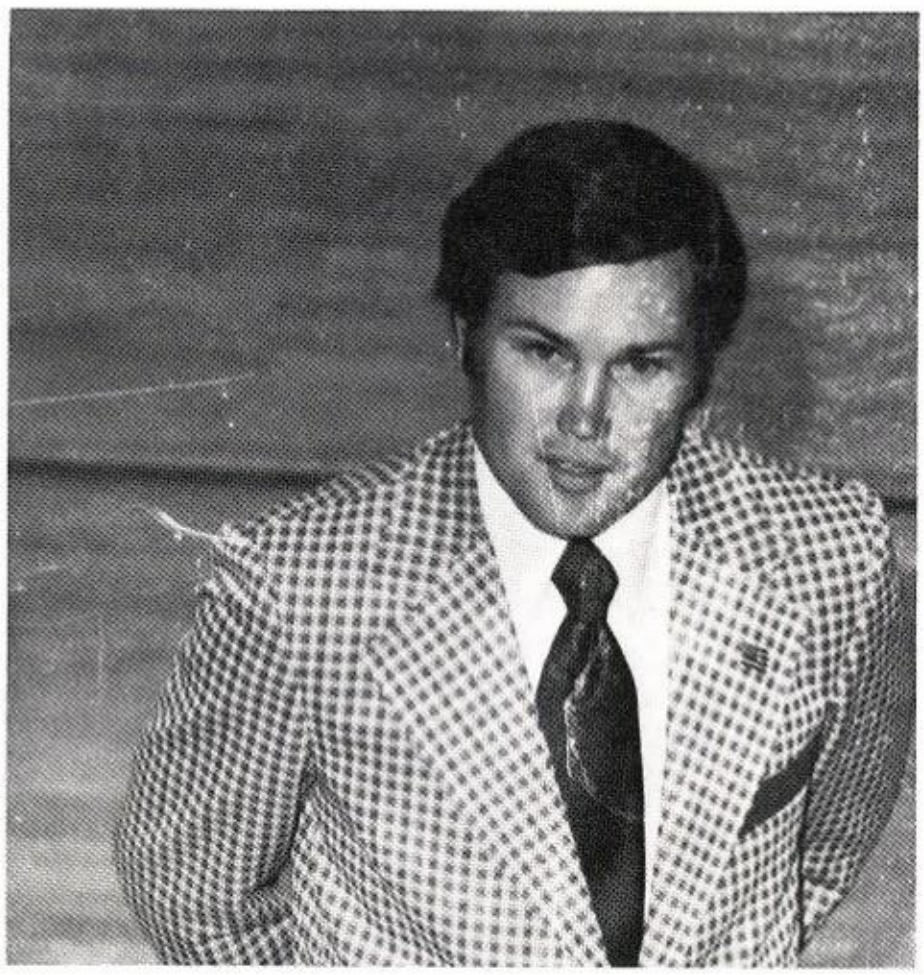
We salute you New Deal High,
Always hold your banner high,
Fighting Lions loyal each day,
May you win in every fray.

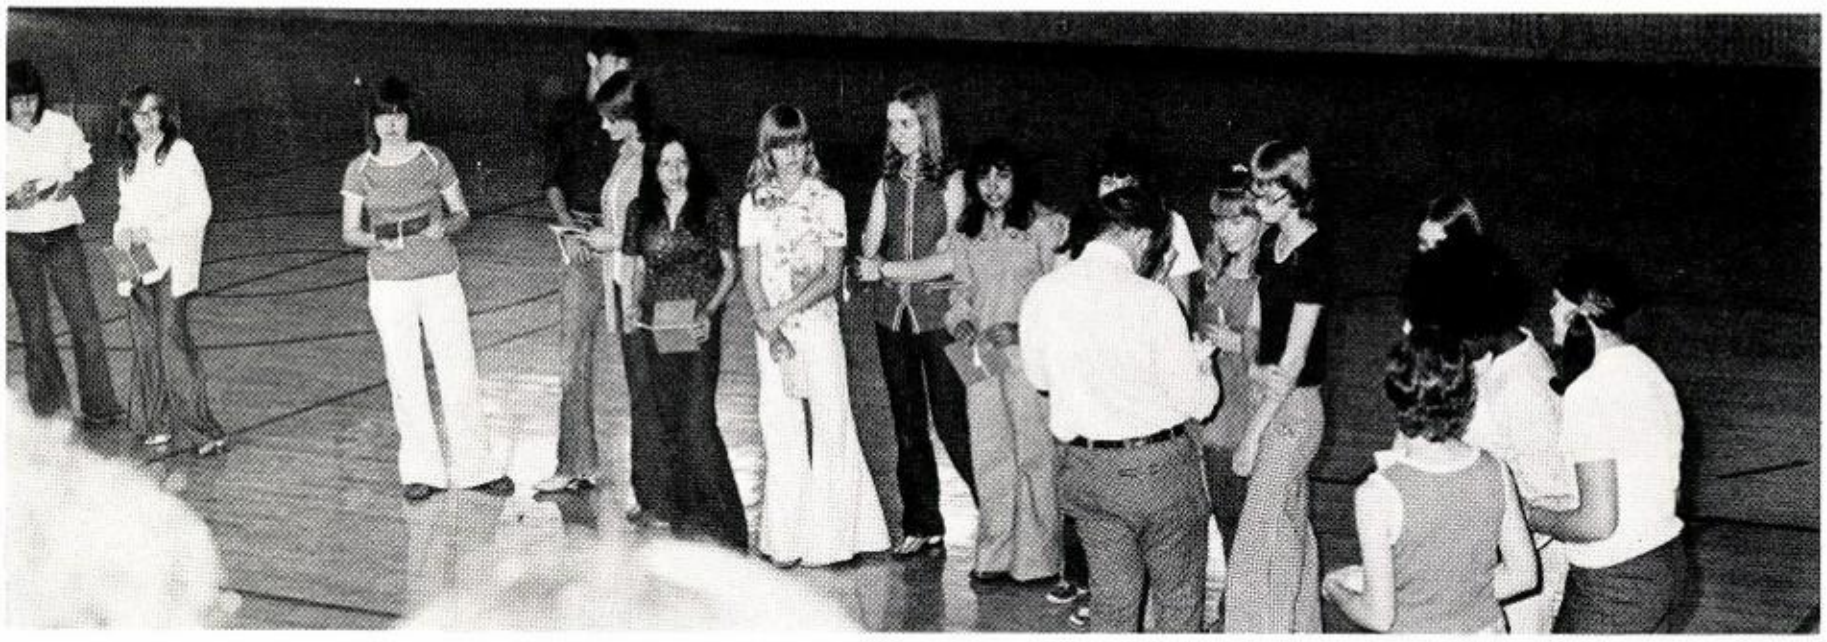
Sportsmanship and Pride with Honor,
Fighting Spirit enduring longer,
We will hold high our heads with Pride,
Fighting Lions of New Deal High.



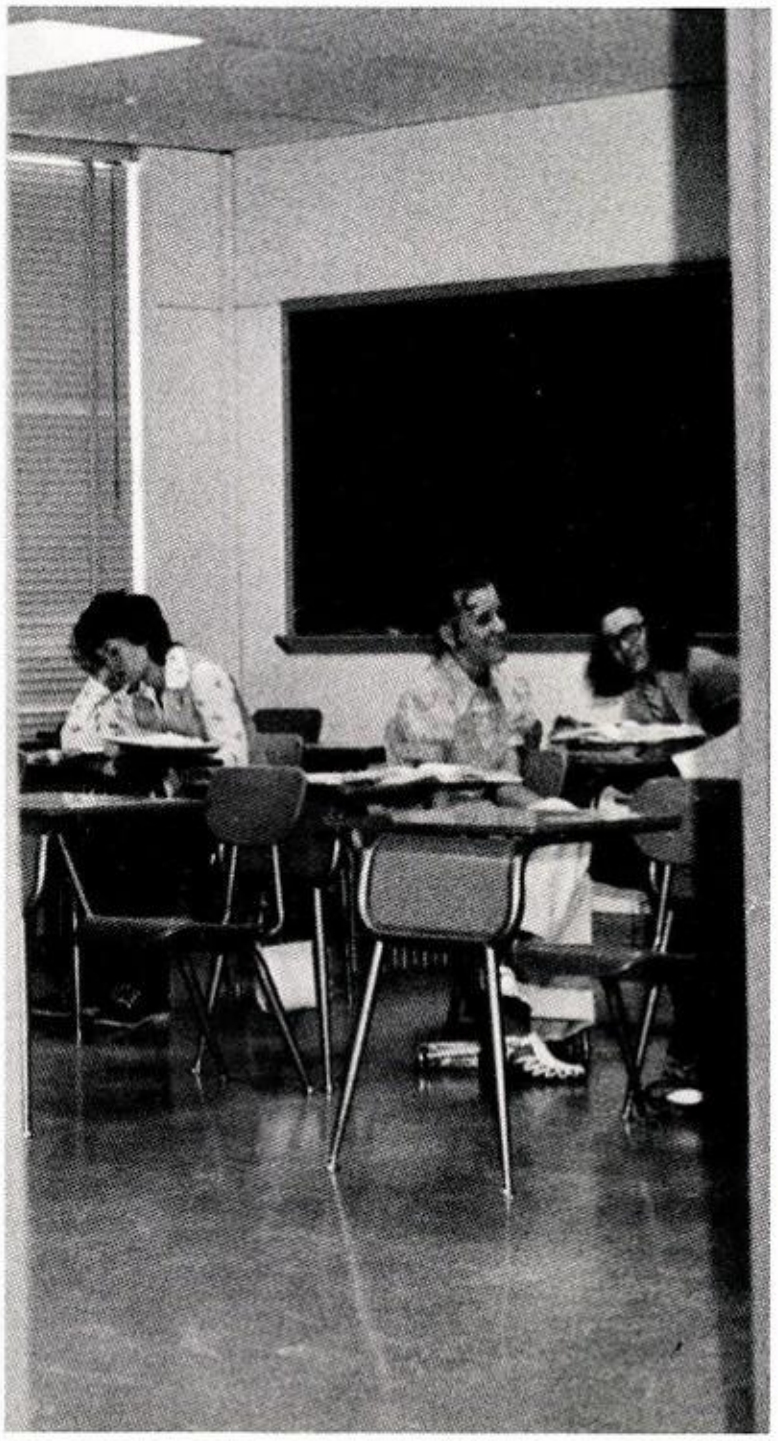


Today . . .

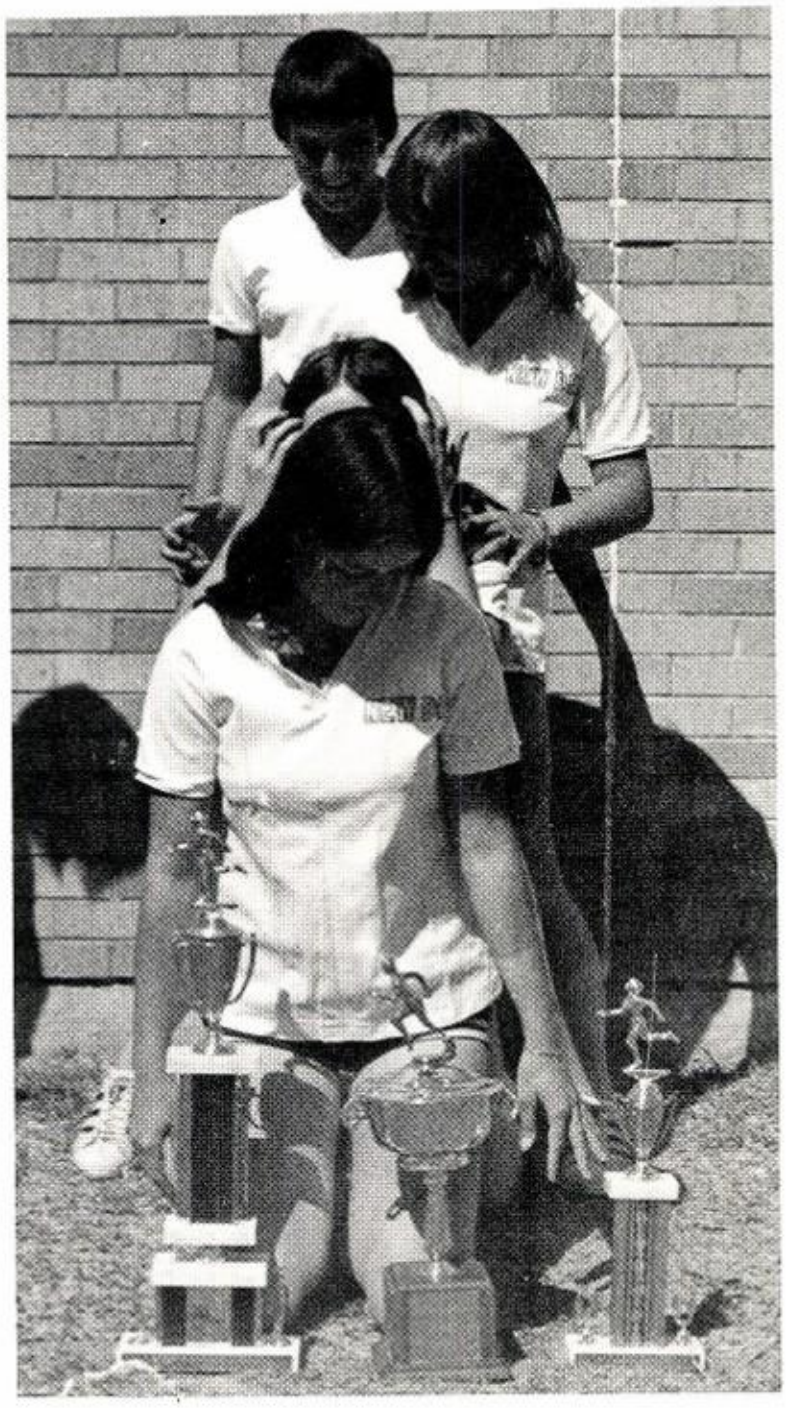
"We stand as citizens in a confusing world of affluence and poverty, concern and apathy, war and dreams of peace. We sing our songs and live our lives and we stand ready to shape the society we will rule."

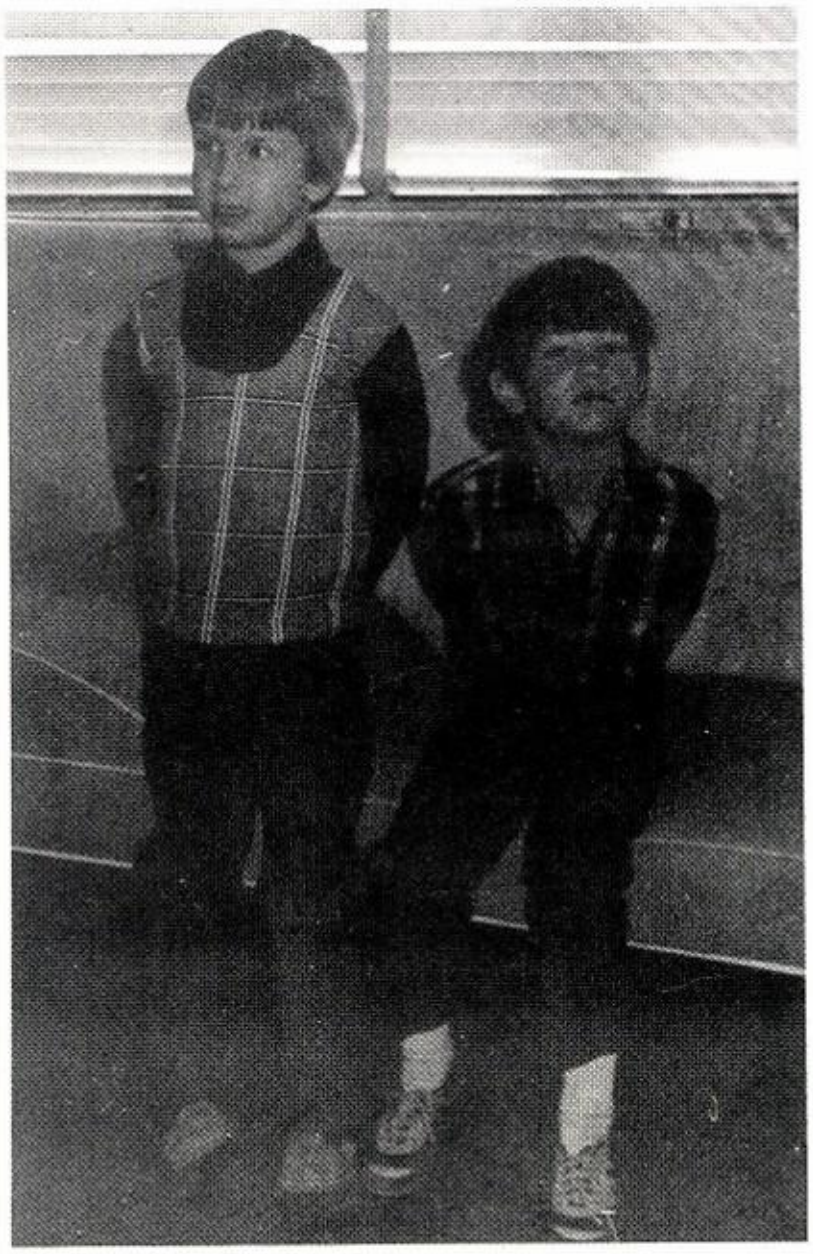


Today . . .



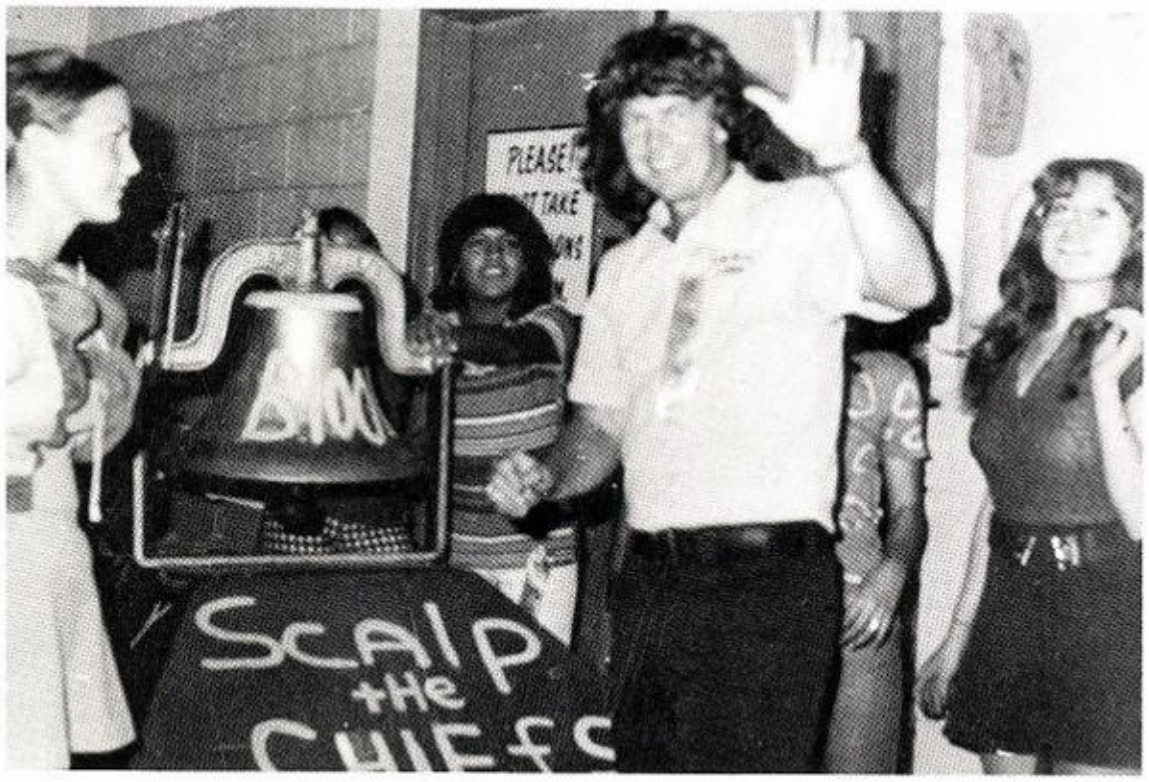
"Ours is a society held in esteem by many and in contempt by few. The annals of history are filled with our accomplishments and are tainted by our mistakes. We are fast approaching the time when we will hold the pen that writes the history our children will study."





Today . . .

"Let us remember the excitement of a united spirit, the challenge of knowledge, the warmth of a smile, and the endless march of Time itself. Let us remember what we learned and left us learn from what we remember."



Favorites

"Democracy is . . . the recurrent suspicion that more than half of the people are right more than half of the time . . . an idea which hasn't been disproved yet . . . "

The Blue Sky Energy.

We can't take credit for it. That's just the way it happens to be. Natural gas is clean burning. Doesn't dirty the air. It helps preserve the clean, blue skies of today for tomorrow.

What we can take credit for is working to provide a continuous supply of clean gas energy . . . to warm people, to cool people, to cook their meals, to heat their water, to dry their clothes . . . gas to help industry do its work.

Clean, efficient, versatile Natural Gas . . . the blue sky energy for today and tomorrow.
